Objective: Skilled full stack web and mobile developer with strong communication skills eager to join a creative, problem-solving team. I am very passionate for learning new technologies and enhancing my programming skills.

HIGHLIGHT OF QUALIFICATIONS

- Deep knowledge of data structures, algorithms and object-oriented programming.
- Great communication and negotiation skills acquired through previous work experience.
- Advanced skills in native android and iOS mobile app development.
- Able to prioritize critical tasks and work effectively under tight deadlines.

TECHNICAL SKILLS

Mobile Technologies:	Swift, Java, Kotlin
Web Technologies:	HTML, CSS, JavaScript, ReactJS, NodeJS, Express
Applications:	XCode, Android Studio, Visual Studio Code, Git, JIRA
Databases:	Microsoft SQL Server, MongoDB, Cloud Firestore

EDUCATION

Mobile App Development – Graduate Certificate   Sept 2021 – Aug 2022

George Brown College | Toronto, Ontario

Data Analytics – Graduate Certificate   Jan 2021 – Aug 2021

Durham College | Oshawa, Ontario

Computer Science Engineering – B.Tech   July 2014 – June 2018

The NorthCap University | Gurugram, India

PROJECTS

- **Holiday Hype**: It is an android app which helps travelers easily plan and book their complete trip with the widest selection of flights, hotels, attractions and restaurants. Its backend is created using Node, Express and MongoDB.

- **Foodilicious**: It is a cross platform mobile app developed using React Native and Cloud Firestore for ordering food from the local restaurants.

PROFESSIONAL EXPERIENCE

Software Engineer   July 2018 - December 2020

Kellton Tech Solutions Limited | Gurugram, India

- Analyzed clients needs to determine technical requirements.
- Produced clean, efficient code based on specifications.
- Identified areas to improve system performance and design.
- Created efficient stored procedures and SQL functions to update and retrieve data efficiently and without inconsistencies.
